

FACT SHEET

THORNTON ROAD WIDENING

Project Description:

The project will widen Thornton Road from a two to a six lane roadway with a center turn lane between Pershing Avenue and Bear Creek. The project length is approximately 1.5 miles. Project improvements include pavement widening; storm drainage facilities; curb, gutter and sidewalks; signal modifications; new signals; streetlights, landscaping, signing and striping. A majority of the Project is located within the City of Stockton, however some portions remain in the jurisdiction of San Joaquin County.
